IMPRINTED IN-SITU CONCRETE PAVING

COLOUR HARDENED CONCRETE

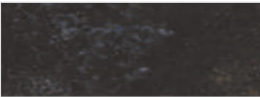

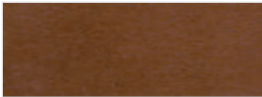

Colours shown are reproduced as accurately as the printing process will allow.

ANTIQUE RELEASE AGENT (RA) COLOURS

			
Charcoal CM56	Classic Grey CM57	Platinum Grey CM59	Mahogany CM55
			
Chocolate CM58	Tan CM69	Beige CM70	Tile Red CM45
			
Slate Green CM52	Plum CM51	Walnut CM75	Golden Brown CM53

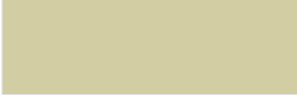

Presscrete RA colours are designed to complement Presscrete CSH colours when used in our imprinted concrete systems. All Presscrete RA colours are UV stable and consistent from batch to batch. Custom colours available.

PRESSCRETE STAIN COLOURS

				
Typical Grey Concrete	Fern F5	Aqua Blue A5	Chestnut C5	Deep Green DG5
				
Bronze B5	Mahogany M5	Terracotta T5	Burnt Orange BO5	Seal Brown SB5

Presscrete Stain is a blend of mineral salts in a mildly acidic solution which, when applied to concrete surfaces, react with free lime to form permanent coloured surfaces without risk of peeling or flaking. The grey base colour shown is a typical concrete colour; variations in the base will change the resulting colour effect.

SILICONE JOINT FILLER COLOURS

			
Black CM97	Rustic Red CM91	Brown CM92	Grey CM93
			
Buff CM94	Portland CM95	Anthracite CM98	Clear CM99

Jointing filler is used to fill saw-cut joints to help inhibit weed growth and prevent small stones or foreign objects lodging in the joint.
