

TRANSFORMING VJ TECHNOLOGY'S WAREHOUSE LIGHTING WITH ENERGY EFFICIENT LED SOLUTIONS

OVERVIEW

VJ Technology is a leading supplier of fixings and site materials, committed to improving operational efficiency and sustainability across its facilities. Seeking to enhance lighting quality and reduce energy consumption, the company partnered with Ecolux to implement an LED lighting upgrade at its Ashford warehouse.

THE CHALLENGE

Before the upgrade, VJ Technology's warehouse lighting system relied on outdated 4x49W high bay luminaires. These fixtures were not only inefficient but also lacked proper emergency lighting coverage in key areas, posing potential safety risks. The company needed a comprehensive lighting solution that would:

- Reduce energy costs and improve efficiency
- Enhance the quality of workplace illumination
- Ensure compliance with emergency lighting regulations
- Align with sustainability and carbon reduction targets

AT A GLANCE

Company: VJ Technology

Industry: Construction Fixings & Site Materials

Location: Ashford, Kent

WHY ECOLUX

Ecolux specialises in high-quality LED lighting solutions that drive efficiency and sustainability. Our team worked closely with VJ Technology to ensure a seamless transition to LED lighting, delivering a solution that met both financial and environmental objectives.

THE RESULT

The LED retrofit delivered substantial benefits for VJ Technology, including:

Energy Savings: Significant reduction in electricity consumption, leading to lower operational costs.

Cost Efficiency: Quick return on investment (ROI), making the upgrade a financially sound decision.

Sustainability Impact: Reduced CO₂ emissions, supporting the company's environmental and ESG commitments.

Improved Workplace Safety: Better lighting quality and enhanced emergency lighting coverage.

Lower Maintenance Costs: Long-lasting LED fixtures reduced the need for frequent replacements and maintenance.

LIGHTING THE FUTURE SUSTAINABLY

Ecolux is proud to support VJ Technology with a tailored LED upgrade, enhancing efficiency, safety, and sustainability. This project showcases our expertise in delivering long-term, impactful lighting solutions.
