

SUMMER GUTTER MAINTENANCE AT A WESTCLIFF SCHOOL

OVERVIEW

SuperGutterVac has been the trusted partner for gutter maintenance at this Westcliff school for several years, providing both cleaning and repair work across the site. The school comprises a mix of buildings of different ages, sizes, and designs, making access and cleaning a complex task. Our team is well versed in handling these challenges, ensuring that every section of guttering remains clear and functional, regardless of height or condition.

CHALLENGES

- Varying building types: Different roof heights and gutter styles required tailored approaches.
- Restricted time frame: All work had to be completed within the summer holiday window to avoid disruption.
- Unexpected debris: School gutters often accumulate unusual items alongside the usual leaves and moss.

In fact, in one previous visit we retrieved more than 50 tennis and footballs from the guttering system!

AT A GLANCE

Client: Local School in Westcliff-on-Sea, Essex

Project Scope: Gutter Clearing & Repairs, In summer holidays.

THIS YEAR'S FINDINGS

At the start of this summer holiday, a three person SuperGutterVac team attended the school to carry out a full gutter clear and repair broken sections as needed. Amongst the usual build up of organic debris, this year's finds included **two shoes** (not a matching pair!) , **several water bottles** and enough **tennis balls** to supply Wimbledon for a week.

Our high-powered vacuum system and onboard cameras allowed us to remove all blockages safely from the ground, ensuring minimal risk and no disruption to the premises.

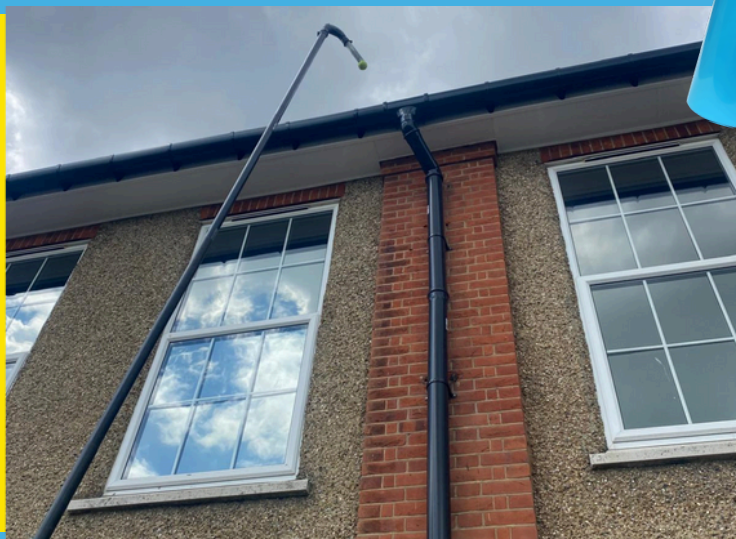

WHAT'S NEXT?

This job marks just the start of our summer school maintenance schedule. Over the holidays, our teams will be visiting multiple educational sites across Essex to ensure their guttering systems are clean, functional, and ready for the year ahead.

THE RESULTS

- ✓ All gutters cleared and flowing freely.
- ✓ Repairs carried out on damaged sections to extend gutter lifespan.
- ✓ Site left clean and tidy, ready for the new term.
- ✓ Preventative maintenance completed ahead of the autumn and winter weather.

SuperGutterVac

Trusted by schools, councils, and property managers across Essex since 2016.
